# LIVE WINNSBORO.

People Relieved to Know That the Tramp Suspected of Having Yellow Death of Miss Briscoe.

WINNSBORO, Sept. 29.-Winnsboro is at present progressing. She began the fall with three new stores-a racket, a confectionery and a grocery store. Mount Zion College has opened with a large number of pupils. The new teachers are Miss Oakley, of Tennessee; Miss Agnes Rice, of Union, and Prof. Lecant Davis, of Columbia. News was received here Monday of

E. Best, Orange; W. P. Hosler, Nan- the death in Atlanta, of Mrs. W. B. Briscoe. She was the wife of Rev. W. B. Briscoe, who was at one time pastor of the Baptist church here. Her death is a sad blow to her many friends in Fairfield county. THE FEVER SUSPECT.

It is indeed a relief to know that Winnsboro has not been harboring for a day or more a yellow fever patient. The whole town was excited over a tramp who hailed from New Orleans. and was observed by many to be sick and suffering. However, the idea of yellow fever did not suggest itself to anyone until after he boarded the train and began to show rather alarming symptoms. The train was stopped five miles north of Columbia, where a Charleston physician was telegraphed for. After making a thorough examination he stated the tramp was suffer ing from malarial fever and not yellow fever, to the relief of every one, especially the Winnsboro people. During his stay here he visited a number of

houses begging for food. Prof. David G. Dwight leaves today for Charleston, after spending the summer at home. Miss Annie Davis left Monday for

Columbia to begin her studies at the A. M. C. South Carolina College. VALUE AND USE OF COTTON-SEED

WASTE. "Cotton-seed waste, which a generation ago accumulated at the gin-house, filled up the streams, rotted in the fields, and became an irritating nuisance, is now worth about thirty million dollars a year," writes William George Jordan on "Wonders of the World's Waste," in the October Ladies' Home Journal, "Every bale of cotton leaves a legacy of half a ton of seed, which, it is said, brings the planter nearly as much as his cotton. The oil is used for finer grades of soap, as a substitute for lard, and is so near olive oil that an expert can hardly detect the difference. The hulls are fed to cattle, make an excellent fuel, are valuable as paper stock, and when burned the ashes make a fertilizer which is most efficacious. It has recently been discovered that cottonwith the addition of eighteen per cent, of crude India rubber, makes an imitation which cannot be distinguished from genuine rubber."

MAY BE PEARL BRYAN'S SKULL. William Parson ,a boatman, while digging for coal in the Medoc sandbar, near Cincinnati, on the Kentucky side of the Ohio river, found a skull, the lower jaw of which was gone. In the upper jaw were nine teeth. Two front eeth were gold filled. An expert dentist says it is a skuli of a woman between eighteen and twenty-three years old. It is supposed to be that of Pearl Bryan, for whose murder Jackson and Walling were hanged. Should that prove true, it has been in the river over nine-

teen months. MORTUARY REPORT. The keeper of Elmwood and Pinewood emeteries makes the following report or the month of September: Elmwood-Total number of deaths, 10. Male adults, 2; female, 3; children

OUR LADY OF THE SNOWS. Some features of the Canadian sytem f branch-banking have come in for strong approval by bankers on this side of the line, and now it appears that the system of postal savings banks invogue among our Canuck neighbors has met he approval of Postmaster General Gary and will receive commendation in his forthcoming report. It would appear, indeed, that there are so many admirable things concentrated in our eighboring Dominion of the "Lady of the Snows"-not excepting the Klondyke gold fields-that it may yet be necessary to anney it to the United States in order to round out the destiny both and make this country not ony the "model republic" that it is but he richest and most prosperous on the face of the globe.-Chicago Tribune.

NOT SO FUNNY AFTER ALL. A bright idea struck a Providence Rhode Island, coal man to have a little innocent amusement, so he gilled a big hunk of coal labelled it "a Klondike nugget, value \$9,000," put it in his show window and went home counting on the fun he was going to have next day vatching the people who came to get a look at the nugget. A CHILD'S HEALTH depends almost wholly on the mother's not only before its birth but after-A sick mother can't properly are for her child's health. A sick mother sometimes bears a healthy child, but it isn't to be expected. Maybe the baby will possess the appearance of health, but will lack stamina. Maybe innate weakness will develop in after years. Every woman should be particularly careful of her health during the period of gestation-when the child is really a part of herself. During all this time, she should keep her body strong and pure, and she should take proper precautions against her time of labor. For this purpose Dr. Pierce's Favorite Prescription is prescribed. It has been used in thousands of cases, with the most gratifying results. It is tonic to the whole body, but particularly to the organs distinctly feminine

There was a very warm time in the office of the Postmaster General this week, which resulted in an apology from the Postmaster General to "Dick" Kerens, the Missouri Republican boss. The row started when Kerens produced mandatony order from McKinley directing that a man selected for postmaster at Kirkville, Mo., by the Postmaster General, should not be appointed. Mr. Gary got so mad that he accused Kerens of wanting to have em ezzlers appointed postmasters in Mo. Then the Missouri boss got "on his ear" and made things so hot for Mr. Gary hat he was glad to close the incident by making an apology. What really nade Mr. Gary mad was that Mr. Mc-

ROUTE AND RATES TO THE ASSO-TION. Route and rate to the Associate Reformed Presbyterian Synod at Belfast, Tenn., October 21, 1897. Huntersville, N. C., Sept.23.

Dear Brother: After carefully considering the advantages of the various lines, I have decided on the following as the most direct route and giving us advantage of the lowest rates. By special arrangement we will use the 16-days round trip tickets to the Tennessee Centennial Exposition at Nashville with stop over privileges at Deckard on the going trip, from which point a special train will carry us to Belfast. We will travel in a special private car which will be for our exclusive use during the entire trip and will be conducted by Mr. G. McP. Batte of the Seaboard Air Line, and Mr. J. H. Latimer of the N. C. & St. L. In order to get the benefit of the above rates and advantages, the following

m., rate \$12.75; Catawba, S. C., 10:08 p. m., rate \$12.70; Chester, S. C., 10:47 p. m., rate \$12.30; Clinton, S. C., 12:10 1:07 a. m., rate \$10.65 Abbeville, S.
